### AMENDMENTS TO THE CLAIMS

Please amend Claims 1, 14 and 15, and add new Claims 16-20. Claims 2-13 remain as previously pending.

1. (Currently Amended) A method of generating a document management system, the method comprising:

importing within a software utility one or more documents in electronic form;

designating within the software utility an organizational structure including main categories and one or more levels of subcategories; and

assigning within the software utility the one or more documents to one or more of the main categories and subcategories within the organizational structure; and the software utility thereby automatically generating-generates a document management system including the one or more documents organized within the organizational structure and accessible via a computing system.

2. (Original) The method of Claim 1, wherein the step of importing further comprises modifying properties of the one or more documents.

3. (Original) The method of Claim 2, wherein one of the properties comprises a name.

4. (Original) The method of Claim 2, wherein one of the properties comprises a digital format of the electronic form and wherein the modification includes format standardization.

5. (Original) The method of Claim 1, wherein the step of importing comprises importing from a third party vendor.

6. (Original) The method of Claim 5, wherein the third party vendor comprises a scanning company.

7. (Original) The method of Claim 1, wherein the document management system comprises a website and is accessible via the Internet.

8. (Original) The method of Claim 1, wherein the management system comprises a CD-ROM and is accessible via a computer.

9. (Original) The method of Claim 1, wherein the document management system comprises computer readable storage media.

Appl. No. : 10/789,649  
Filed : February 27, 2004

10. (Original) The method of Claim 1, wherein the one or more documents comprise forms associated with a specific industry.

11. (Original) The method of Claim 10, wherein the industry comprises the health care industry.

12. (Original) The method of Claim 10, wherein the forms are associated with one or more health care programs.

13. (Original) The method of Claim 1 further comprising assigning one of a plurality of standard document sizes to the one or more documents, wherein an actual document size may not be identically equal to any of the plurality of standard document sizes.

14. (Currently Amended) A method of automatically generating organized computer readable electronic information, the method comprising:

associating within a software wizard electronic documents within an organization structure designated by a user, wherein the organizational structure includes main categories and one or more levels of subcategories; the software wizard thereby automatically generating—generates a website indexing the electronic documents within the organization structure;

modifying one of the electronic documents using a user interface after the website is generated; and

republishing automatically updating the website to reflect the modified electronic document;.

15. (Currently Amended) The method of Claim 14, wherein the ~~automatic~~ update/republishing is transparent to the user.
